MARBELLA CHIROPRACTIC MOVES INTO NEW CLINIC

Marbella Chiropractic opened the doors to its new premises in Guadalmina recently. The offices are located just around the corner from the old address, on the front side of Guadalmina Commercial Centre. Tim Errington, Doctor of Chiropractic says, "We continue to serve our community with a total package of care under one roof and I am delighted that we now have Sari Dewald, our physio and massage therapist, on board. It's a pity that many people value health only when sickness comes. Why suffer from pain when you can live life to its full potential?" To celebrate the opening of the new offices, Marbella Chiropractic is offering a first chiropractic consultation, analysis and treatment for only €45. * **C.C. Guadalmina, front side, Marbella. CARSOL CHEAPER ELECTRICITY IN A JIFFY

The market for the commercialisation of energy was 'freed' in Spain in January 2003, and the Spanish government made it obligatory for companies to belong to the 'free market' on July 1st 2008 for High Tension, and July 1st 2009 for Low Tension. The law states that it is obligatory for all businesses and homes with more than 10 KW of contracted power supply to sign a new contract with a company dealing in this 'free market'. As for businesses, any company that fails to sign a new contract prior to July of this year will suffer up to 30 per cent increases in electricity bills and may even have their energy supply cut off. Carsol, which represents the energy commercialisation company, Factor Energia, offers the following:

1. A saving of five per cent on your monthly invoice if your electricity contracted is between 10KW and 15KW.
2. Savings of 15 per cent on your monthly invoice if your electricity contracted is more than 15KW.

Just e-mail the Carsol staff your last paid invoice from ENDESA (or the electric company with whom you have a contract) and, in a couple of days, the company will inform you of how much you can save (no cost involved). Please note that the only thing that changes is your monthly invoice; your energy supply and maintenance remains the responsibility of the electricity distributor (for example, ENDESA). * **Andalucía delegation: Tel: 691 083 595 / andalucia@carsol.org**

BUSINESS AND TAX OPEN DAY

The Business Support Centre in Marbella, together with the British Chamber of Commerce in Spain and Spence Clarke & Co., recently held an open day at the CADE Marbella, providing 20-minute consultations on business matters (taxation and accounting), taxation for individuals and mercantile business matters. The event, which was well attended by those seeking advice from top professionals, was completely free of charge, with both residents and non-residents availing themselves of the advice of professionals. *
